SERENGETI TRACKER

ELECTRONIC INVOICING & MATTER MANAGEMENT

WHY DOES SERENGETI CONSISTENTLY COME OUT ON TOP?

Our formula is simple—we help you apply today's best practices with a system that's easy-to-use and competitively priced.

"Since joining Nike from private practice, I have seen the many advantages of the system from the client's perspective. Tracker simplifies our processing of bills and budgets, and streamlines the sharing of other important information about the status of the case. Serengeti Tracker helps us collaborate more efficiently with our outside counsel, both in the U.S. and abroad."

Peter H. Koehler, Jr.
General Counsel, U.S. Region
Nike

"Having first used Serengeti as a general counsel and now as outside counsel, I can see the great advantages it brings to the relationship. Serengeti enhances communication with and delivers predictability to my clients by streamlining billing, budgeting, status reports, and other key information. As one who's seen first-hand the benefits to both law departments and firms, I strongly recommend Serengeti to my clients who are interested in e-billing."

Byron S. Kalogerou

2008 MANAGING OUTSIDE COUNSEL SURVEY RESULTS:

When asked "which of the following technologies help you manage legal work with outside counsel," more law departments chose Serengeti Tracker than any other electronic invoicing/matter management system.
